

QCP-01-QUALITY POLICY

BD Structures Ltd is a Company of people that understand the importance of providing its customers with services that meet or exceed the agreed requirements.

We recognise that this goal will only be achieved by our commitment to effective and efficient Quality Management and Good Business Practice at all levels and within every function within our organisation.

To support these aims, the Company:

- Will implement a Quality Management System which meets the requirements of BS EN ISO 9001:2000,
- Is committed to establishing and reviewing quality objectives,
- Is committed to the process of continual improvement in all parts of its operations.

Profits are necessary to sustain the company, allow re-investment, and provide a measure of our performance in satisfying our customer's needs.

We recognise that our personnel are our ultimate strength and we are committed to their continual development and training.

We are committed to never compromising on quality or integrity as to do so would mean to fail in our aims laid out above.

The contents of the Quality Manual are mandatory and it is the responsibility of all personnel to ensure that procedures are followed

This quality policy will be reviewed at each management review and revised as necessary.

As **Managing Director** I accept primary responsibility for the quality of our systems, products and service, and endorse the Quality Management System, which works towards complying with ISO9001: 2000 Quality Standard, to implement this.

I will delegate my responsibilities to the Production Director, who due to the development of the Company is also the **Quality Assurance Manager** to ensure that this System is understood, accepted and implemented throughout the organisation.

Signed

A handwritten signature in black ink, appearing to be 'Clay', written in a cursive style.
